## 对话 / Dialogue

A Hello, Arthur. What seems to be the problem?

你好，亚瑟。看起来是什么问题呢？

B Hey doc. Well, I think I might need glasses. I'm getting headaches, and I really struggle to see things that are far away. But I have always had 20/20 vision.

嘿，医生。嗯，我觉得我可能需要配眼镜了。我总是头疼，看远处的东西也很吃力。可我一直都是2.0的视力啊。

A Sounds like you may be far-sighted. OK, then, cover your left eye and read the chart in front of you.

听起来你可能是远视了。好，那你捂住左眼，读一下你面前的视力表。

B Mmm... X, E, R, 3, a question mark, and I can't quite make out the other symbol but I think it's the peace sign.

嗯……X、E、R、3、一个问号，还有一个符号我看不太清，不过我觉得是和平标志。

A Wow, Arthur! You're as blind as a bat!

哇，亚瑟！你简直瞎得像只蝙蝠！

B Yeah, I know, my vision is really blurry at times.

是啊，我知道，我的视力有时候真的很模糊。

A Ok then, head on over to the other room and pick out some frames while I fill out your prescription.

那好吧，你到隔壁房间去挑几副镜框，我来给你开配镜单。

B Thanks doc!

谢谢，医生！

A Arthur, that's the bathroom.

亚瑟，那是洗手间。
