对话 / Dialogue

A Well that was an interesting documentary!
嗯，那真是部有趣的纪录片！

B For sure! I didn't really understand some of the technical jargon they used in the film when they talked about social security in the US.
确实！他们在片中谈到美国社会保障时用的一些专业术语，我不太懂。

A Like what?
比如说？

B Well, they mentioned how people put away money in something called a 401K?
嗯，他们提到人们把钱存进一个叫401K的东西里？

A Yeah, I know it sounds weird, but a 401k is a type of retirement plan that allows employees to save and invest for their own retirement. Through a you can authorize your employer to deduct a certain amount of money from your paycheck and invest it in the plan. Everyone tries to contribute as much as possible so that when you retire, you can rest peacefully on your nest egg.
是啊，我知道听起来很怪，但401k是一种退休计划，让员工能够为自己的退休储蓄和投资。通过它，你可以授权雇主从你的工资中扣除一定数额的钱并投入到该计划中。每个人都尽量多缴一些，这样等你退休时，就能靠着自己的积蓄安心度日了。

B That's interesting and logical I guess. In my country, we also have to contribute to a government-run retirement fund, but most people don't really trust it so they just invest in properties or things like that.
挺有意思的，我想也挺合理的。在我的国家，我们也得向政府运营的退休基金缴款，但大多数人并不真的信任它，所以他们就投资房产之类的东西。

A That seems a bit unstable don't you think?
你不觉得那有点不稳定吗？

- B Yeah, but corrupt governments in the past have created distrust among banks and financial institutions, so now people prefer to have money hidden in a jar or a piggy bank.
是啊，但过去腐败的政府让人们对于银行和金融机构产生了不信任，所以现在人们更愿意把钱藏在罐子里或存钱罐里。
- A I've been thinking of doing that lately! I don't want some banker to run off with my money!
我最近也一直在想这么做！我可不想让哪个银行家卷走我的钱！
