The Office - Presentation Series 2 - Talking about numbers, charts and graphs (C0274)

对话 / Dialogue

Mr Ford As all of you are well aware, competition in the laptop computer sector is intense.
各位都很清楚，笔记本电脑领域的竞争十分激烈。

Mr Ford We continue to fight with our competitors for market share, and this is the case both in the developed markets in the West, as well as more developing markets in Asia and Africa.
我们仍在与竞争对手争夺市场份额，无论是在西方的成熟市场，还是在亚洲和非洲这些较为新兴的发展中市场，情况都是如此。

Mr Ford You may ask yourself, why is this market so cut-throat? Well the answer is simple. There is a huge untapped potential market out there, with a huge untapped potential for profit.
你们可能会问自己，为什么这个市场如此残酷？答案很简单。外面有一个巨大的尚未开发的潜在市场，蕴藏着巨大的、尚未挖掘的利润潜力。

Mr Ford If I bring up the first graph here, it shows the increase in terms of number of computer owners across the globe.
我把第一张图调出来，它显示了全球电脑拥有者数量的增长情况。

Mr Ford As you can see in the 1980's computer ownership amounted to around 0.5% of the total world population. Since the 1990's, computer ownership has risen dramatically.
正如各位所见，在二十世纪八十年代，电脑拥有量约占全球总人口的0.5%。从九十年代起，电脑拥有量急剧上升。

Mr Ford In the new millennium we saw an even larger explosion in computer owners, with figures rising to around 4- 5%, an increase of 1000 % percent compared with the 1980's.
进入新千年后，电脑拥有者的数量出现了更大规模的爆发式增长，数字上升到约4%至5%，与八十年代相比增长了1000%。

Mr Ford If we move on to discuss the figures for China specifically we can see in Chart B that the overall figure for computer ownership stands at around 60 million, which represents a huge increase in a very short time period.
如果我们接着专门讨论中国的数据，就可以在图表B中看到，电脑拥有量的总体数字约为6000万台，这代表着在极短时间内的巨大增长。

-
- Mr Ford Now of course 60 million is just a drop in the ocean if you compare the total population of China, and this is a key reason why the personal computer market is such a hot market.
当然，如果拿中国的总人口来比较，6000万只是沧海一粟，这也正是个人电脑市场如此炙手可热的一个关键原因。
-
- Mr Ford For us at Alpha, and of course for all our competitors as well, we have millions of potential customers who are looking to join the internet generation.
对我们Alpha公司来说，当然对我们所有的竞争对手也一样，我们有数百万潜在客户正准备加入互联网一代的行列。
-
- Mr Ford If we do this right we really can reap huge rewards in a very short time frame. I'd now like to move on to discuss the x420 brand itself, and compare and contrast with some of our key competitors.
如果我们做对了，真的能在极短的时间内获得巨大回报。现在我想接着来讲x420这个品牌本身，并与我们的一些主要竞争对手做个对比。
